Calculate R_0 , R

$$R_0 = P \cdot N / 2 \quad (P = 25.4 \text{ LPI})$$

$$R = R_0 \quad (\text{=Linear scale})$$

$$R = R_0 + 2.5$$

$$R = R_0 + 3.5$$

$$R = R_0 + 1, R = R_0 + 2$$
